HART Communicator Kit

Tab-Ex® 02 DZ2, Viator® HART Interface, and DevComDroid HART Communicator App
Simple HART Configuration in Hazardous Locations

A Tab-Ex® 02 DZ2, Viator® Bluetooth® HART interface, and DevComDroid HART communicator app offer a fully-equipped HART communicator kit for Class I, Division 2 and/or Zone 2 hazardous areas.

Included with Hazardous-Area HART Communicator Kits

- Tab-Ex® 02 DZ2 with Bluetooth®, Android™ 8.1, Wi-Fi and/or WWAN, 3GB RAM, 16 GB storage memory with 256 GB MicroSD integrated, 8-inch touch screen
- DevComDroid Smart Device Communicator app preinstalled
- Complete HART DD Library
- Viator Bluetooth HART Modem

Application

The Viator Bluetooth interface is a point-to-point HART modem for temporary connection to HART field devices. The modem is powered by replaceable AAA batteries and can operate for approximately 20 hours. It attaches to a HART field device with 18-inch leads and test clips. The Tab-Ex 02 DZ2 uses an internal Bluetooth interface to communicate with the modem and DevComDroid Smart Device Communicator app to access and configure HART devices. The tablet's large, rugged touch screen display makes it easy to configure HART instrumentation.
The DevComDroid Smart Device Communicator App for Android allows you to perform complete HART device configurations. The app uses registered DD files from the FieldComm Group for complete access to all features of the HART device, including Methods.
